

STACI's Advantages

"OUR GOAL IS TO EXCEED CUSTOMERS' EXPECTATIONS FROM DESIGN TO DELIVERY."

Dennis Docherty,

President and Chief Executive Officer

STACI's Mission STACI's mission is to be identified as a global, value-added manufacturing partner, offering a diverse line of cost-effective and high quality, custom engineered products and services that provide our customers with unparalleled quality, service and on-time delivery.

The STACI team is dedicated to becoming a long-term, loyal partner with its customers by providing the highest overall value to enable them to achieve their business goals.

STACI's Advantage As a leading manufacturing and supply chain solutions provider, STACI offers its customers numerous advantages, including:

- Strong design and customer support resources located close to our customers in the United States and Europe
- Equity ownership and/or Joint Venture Partnerships with all of STACI's offshore manufacturing facilities
- Low risk and proven path to the benefits of low-cost country manufacturing
- Single source accountability and management for a variety of complementary products and services that allow STACI's customers to be more efficient in supplier management and related areas
- Electronic Manufacturing Services (EMS) capabilities located in both the United States and Asia to service all volume and turn-around needs
- Domestic warehousing
- 24/7 service and attitude
- Complete supply chain solutions provider
- Emphasis on strong, long-term customer relationships

From components to electronic manufacturing services, STACI Corporation is the solution to its customers' outsourcing needs.
